

FOR IMMEDIATE RELEASE

Sheltered, Inc. Corrects the Record on Recent News-Sun Report

Springfield, OH, Aug. 12, 2024 -- The *Springfield News-Sun*'s recent report "[Clark County pulls funding after homeless shelter closes, calls issue sickening](#)," contained many inaccuracies regarding Sheltered, Inc.. In particular, the article quoted a County official as stating that funding could not be given to Sheltered due to pending litigation. This statement is inaccurate. There is currently no litigation pending between the County and Sheltered and, in fact, Sheltered and the County are actively working to amicably and efficiently resolve any dispute that may exist between them.

Sheltered would also like to note that it was one of the first to respond to calls at 9:16 a.m. on Tuesday, August 6, 2024, to assist with displaced persons from the City's sudden closure of the Executive Inn shelter; transitioning affected individuals into alternative shelters as needed and physically assisting with their move.

Sheltered remains devoted to its mission and will continue to serve the underprivileged and those facing homelessness in Clark County to the best of its ability.
